

# **Safety Data Sheet**

**Titebond III Ultimate Wood Glue** 

### **Section 1. Identification**

| GHS product identifier  | : Titebond III Ultimate Wood Glue                                  |  |
|---|--|--|
| Physical state  | : Liquid.  |  |
| Address   | : Franklin International<br>2020 Bruck Street<br>Columbus OH 43207 |  |
| Contact person  | : Franklin Technical Services                                      |  |
| Telephone   | : (800) 877-4583   |  |
| In case of emergency  | : Franklin Security<br>(614) 445-1300                              |  |
| e-mail address of person<br>responsible for this SDS                          | : SDS@FranklinInternational.com                                    |  |
| Reference number  | : 6192   |  |
| Product code  | : 1416   |  |
| Date of revision  | : 10/17/2022   |  |
| Safety Data Sheets are available online at                                    | : www.FranklinInternational.com                                    |  |
| Chemtrec (24 Hour)  | : (800) 424 - 9300   |  |
| Chemtrec International  | : +1 703-741-5970  |  |
| Chemical family   | : Adhesive.  |  |
| Relevant identified uses of the substance or mixture and uses advised against |  |  |
| Identified uses   |  |  |

Wide dispersive use of substances in professional and DIY adhesives. Industrial use wood glue.

#### Uses advised against Not applicable.

# Section 2. Hazards identification

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
| GHS label elements                         |  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| Prevention                                 | : Not applicable.  |
| Response                                   | : Not applicable.  |
| Storage                                    | : Not applicable.  |

### Section 2. Hazards identification

Disposal

: Not applicable.

Hazards not otherwise classified : None known.

# Section 3. Composition/information on ingredients

#### Substance/mixture

Other means of

: Mixture : Not available.

identification

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

### Section 4. First aid measures

#### Description of necessary first aid measures Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if needed. Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if needed. Ingestion : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if needed. Most important symptoms/effects, acute and delayed Potential acute health effects Eye contact : This product may irritate eyes upon contact. Inhalation : No known significant effects or critical hazards. Skin contact : No known significant effects or critical hazards. Ingestion : No known significant effects or critical hazards. **Over-exposure signs/symptoms** Eye contact : No specific data. Inhalation : No specific data. Skin contact : No specific data. Ingestion : No specific data. Indication of immediate medical attention and special treatment needed, if necessary Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Specific treatments : No specific treatment. Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                        |  |                            |     |
|--|--|----------------------------|-----|
| Suitable extinguishing media               | : Use an extinguishing agent suitable for the surroundin     | g fire.                    |     |
| Unsuitable extinguishing media             | : None known.  |                            |     |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and | d the container may burst. |     |
| Date of issue/Date of revision :           | 10/17/2022   | Version : 1                | 2/9 |

### Section 5. Fire-fighting measures

| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide  |
|--|---|
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

# Section 6. Accidental release measures

| Personal precautions, protec   | tive equipment and emergency procedures  |
|--------------------------------|--|
| For non-emergency<br>personnel | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment.   |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| Methods and materials for co   | ntainment and cleaning up  |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### Section 7. Handling and storage

### Precautions for safe handling

| Protective measures<br>Advice on general<br>occupational hygiene   |   | Put on appropriate personal protective equipment (see Section 8).<br>Eating, drinking and smoking should be prohibited in areas where this material is<br>handled, stored and processed. Workers should wash hands and face before eating,<br>drinking and smoking. Remove contaminated clothing and protective equipment before<br>entering eating areas. See also Section 8 for additional information on hygiene<br>measures.  |
|--|---|---|
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 4.4444 to 32.222°C (40 to 90°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

## Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

None.

### **Biological exposure indices**

No exposure indices known.

| Appropriate engineering controls | Good general ventilation should b<br>contaminants.                     | e sufficient to control worker exposure to airborne  |
|----------------------------------|--|--|
| Environmental exposure controls  | hey comply with the requirement  | k process equipment should be checked to ensure<br>s of environmental protection legislation. In some<br>engineering modifications to the process equipment<br>sions to acceptable levels.   |
| Individual protection meas       |  |  |
| Hygiene measures                 | eating, smoking and using the lav<br>Appropriate techniques should be  | thoroughly after handling chemical products, before<br>vatory and at the end of the working period.<br>e used to remove potentially contaminated clothing.<br>ore reusing. Ensure that eyewash stations and safety<br>tion location. |
| Eye/face protection              | assessment indicates this is nece<br>gases or dusts. If contact is pos | n approved standard should be used when a risk<br>essary to avoid exposure to liquid splashes, mists,<br>sible, the following protection should be worn, unless<br>er degree of protection: safety glasses with side-                |
| Skin protection                  |  |  |
| Hand protection                  |  | oves complying with an approved standard should be<br>hemical products if a risk assessment indicates this is  |
| Body protection                  |  | r the body should be selected based on the task being<br>and should be approved by a specialist before   |
| Other skin protection            |  | ditional skin protection measures should be selected<br>and the risks involved and should be approved by a<br>oduct.   |
| Respiratory protection           | appropriate standard or certificati                                    | al for exposure, select a respirator that meets the<br>on. Respirators must be used according to a<br>ensure proper fitting, training, and other important   |
|                                  |  |  |

### Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| <u>Appearance</u>                                       |  |                |
|---|--|----------------|
| Physical state  | : Liquid.  |                |
| Color   | : Brown. [Light]   |                |
| Odor  | : Characteristic. [Slight]   |                |
| Odor threshold  | : Not available.   |                |
| рН  | : 2.5 to 3.5   |                |
| Melting point/freezing point                            | : Not available.   |                |
| Boiling point, initial boiling point, and boiling range | : 98.889°C (210°F)   |                |
| • • • •   |  |                |

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
|                                    |  |

## Section 11. Toxicological information

#### Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitization

Not available.

Mutagenicity Not available.

### **Carcinogenicity**

## Section 11. Toxicological information

Not available. **Reproductive toxicity** Not available. **Teratogenicity** Not available. Specific target organ toxicity (single exposure) Not available. Specific target organ toxicity (repeated exposure) Not available. **Aspiration hazard** Not available. Information on the likely : Routes of entry not anticipated: Oral, Dermal, Inhalation, Eyes. routes of exposure Potential acute health effects Eye contact : This product may irritate eyes upon contact. Inhalation : No known significant effects or critical hazards. Skin contact : No known significant effects or critical hazards. : No known significant effects or critical hazards. Ingestion Symptoms related to the physical, chemical and toxicological characteristics Eye contact : No specific data. Inhalation : No specific data. Skin contact : No specific data. Ingestion : No specific data. Delayed and immediate effects and also chronic effects from short and long term exposure Short term exposure : Not available. **Potential immediate** effects **Potential delayed effects** : Not available. Long term exposure **Potential immediate** : Not available. effects **Potential delayed effects** : Not available. Potential chronic health effects Not available. General : No known significant effects or critical hazards. Carcinogenicity : No known significant effects or critical hazards. : No known significant effects or critical hazards. Mutagenicity **Reproductive toxicity** : No known significant effects or critical hazards. Numerical measures of toxicity Acute toxicity estimates

# Section 12. Ecological information

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available. Bioaccumulative potential

Not available.

| <u>Mobility in soil</u>                   |   |
|---|---|
| Soil/water partition<br>coefficient (Koc) | : Not available.                                    |
| Other adverse effects                     | : No known significant effects or critical hazards. |

# Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
